Dear Rudy:

I wish to express my sincere appreciation for the great tile job you did in my bathroom makeover last summer. Everyone who sees the new bathroom is in awe of your craftsmanship. It was a pleasure to work with you, especially with all your creative ideas and strict attention to detail. I could see that you took pride in your work as well as being neat and cleaning up before you left each day.

If there was a tile crafters hall of fame, I would be the first one to nominate you to be inducted. If I needed tile work to be done in the future, I would not hesitate to call you and I am certainly going to highly recommend you to other people who are in need of a true master craftsman.

Thank you,

Bill

Dear Rudy,

I can't begin to tell you what a BEAUTIFUL job you did on my backsplash. I can't stop looking at it!

Your company name says it all "With Perfection". You are certainly a dying breed. You are a true craftsman. Your professionalism astounded me.

As you know, I was left by my builder, left with not one room in my house finished and as such, you were faced with some nasty challenges when installing my backsplash. You had some intricate cuts to make in the tile in order to make them fit. They are beautiful , I'm not even sure how you made them.

I was afraid on most of the contractors in my house. They always knew best. No suggestions. You are a breath of fresh air. As I said before, professional, courteous, clean, and most of all, you won't leave until the customer is satisfied.

When Procida tile recommended you, I thought, here we go again. After having to regut a new bathroom before it was even used, I was skeptical about anyone doing work in my home. I was ready to once again settle on an OK to mediocre job. NOT the case with you.

I can't wait to finish my house so I can show off my kitchen.

You are amazing. Your attention to detail really pays off in the final presentation. You are a gentleman. It was a pleasure working with you.

I will certainly recommend you to everyone I know!

Thank you again.

Mr. Rudy Romano
With Perfection

Dear Rudy,

We both wanted to thank you again for the wonderful job you did installing the backsplash in our kitchen. It is so nice to deal with someone that cares so much about their workmanship.

The people at Napoli Marble and Granite said that you did fantastic work and we would be extremely happy with your work and they were right. They are very lucky to have someone of your caliber associated with their business. I am confident that they will recommend your work to future customers.

From the very first time I spoke to you, I could tell that you were not just going to come in and slap tile on the walls and that would be the end of it.

The advice that you gave us along with your expertise and attention to all the small details made the job complete. Not to mention the fact that you accommodated our schedules.

I would highly recommend you to anyone I know who will be doing tile work in the future.

I can't wait to call you back for our next project.

We will enjoy our new kitchen for many years to come.

Thank you again.

To Whom It May Concern:

It is with great pleasure I am taking the time to write this letter of recommendation on behalf of Rudy Romano owner of With Perfection tile.

I met Mr. Romano from a recommendation where I purchased the tile for my kitchen back splash.

I had no idea when he quoted me a price how much involvement and detail work was necessary to create a true piece of art work in my home. The cost was well worth it.

Mr. Romano created a design that was magnificent. The emphasis he has on detail, the determination to perfection to all the cuts and layout was beyond amazing. Mr. Romano's patience and importance to detail is a testament to the creative design, quality and look. He made our kitchen come alive. My wife and I love it and will be happy with his work for many years to come.

Thank you Rudy, we will recommend you always and think of you often when admiring this beautiful work you have done for us.

Please feel free to call me any time to discuss Rudy. I will be more than happy to email you photos of the work I had done.

Sincerely,

Subject: Thank you letter to Rudy Romano "With Perfection - Professional Marble & Tile Installation"

November 10, 2008

Dear Rudy,

We met at "Tile It" in Massapequa when we were choosing a floor for our gutted kitchen. You just happened to come into the store at that time and you asked us if we had a tile man to install the mud floor. I said, "Yes, I already did."

You were pleasant, energetic and competitively priced. Then the owners of 'Tile It', Fernando and Isabel, highly recommended you. We thought it would be a good idea to have you give us a free estimate and listen to any suggestions you may have had. You came to our home and showed us your portfolio; then you LISTENED to our ideas.

We chose you to do the work.

We are so happy with HOW LEVEL the mud floor came out and the design you made had all points matching and grout even. Our appliances and cabinets SIT PERFECTLY on the level floor. Being "do it yourselfers" we had planned to install the backsplash tiling ourselves. We eventually decided to treat ourselves and called you back.

Thank you for your suggestions on how to place our tiles for maximum effect; ideas we hadn't thought off. Again you did a great job lining up the tiles and custom mitering the corners which saved us some money because we didn't need to order more bull nose tiles. We appreciated how quickly you returned our phone calls, your punctuality and how well you cleaned up at the end of each day. Thank you for making these installations a pleasure instead of a headache.

Next spring we're gutting our bathroom, and RUDY, YOU'RE OUR TILE MAN.

Sincerely,

Christine and Jerry
